

## call for applications

### nationwide flausen+research scholarships 2024 for the performing arts

From **15.12.2022 to 15.03.2023\*** professional artist groups from the field of performing arts can apply for a flausen+scholarship in 2024. Applications can be submitted using the application form available on the website [www.flausen.plus](http://www.flausen.plus). All further information, including details about the flausen+ project and the scholarship, can also be found there.

#### What is the flausen+scholarship?

What makes the flausen+scholarships special, is that they are research scholarships that allow time and space for the development and exploration of new, daring ideas - both in terms of new aesthetic approaches and the topics explored. The scholarship receivers can intensively explore a self-chosen theme on stage, experiment with new forms or investigate and develop their own style. Instead of a premiere, we organize a public so-called *makingOFF* to round off the scholarship: a final evening that gives an insight into the research work.

This model project aims to give professional freelance artists an investigative opportunity free from the constraints of performance and the pressure to produce results. In other words, you will conduct scenic research, not create a perfect final product!

You've got questions? Don't be shy! We are happy to advise you and support you in the application process.
